

KICK OFF TO

Spring

BULL SALE

MARCH 21, 2016

**SALE AT THE MAPLE LAKE STOCK FARMS SALE BARN | 2:00 PM
85 BULLS - SIMANGUS, SIMMENTAL, SHORTHORN & ANGUS**

WELCOME

to our 7th Annual Family managed bull sale. We are honored to be selling the bulls of this caliber. It has been years of developing our herd to exceptionally high performance, functional and efficient cattle. The progeny is truly exceeding our expectations. The consistency, uniformity, high performance while maintaining calving ease, has been an obtainable goal.

Thank You to everyone who has believed in our program. Thank you to all the bidders and buyers at our previous sales. We would like to thank the 7 consignors, for showcasing 35 Maple Lake sired females. Their satisfaction is our success.

The Bertholet's

and can be viewed online at

www.maplelakestockfarms.com

Catalogue designed by Prairie Pistol Designs - Melissa McRae
All bulls will be semen tested prior to the sale.

Bull Wintering Program:

This special program will offer over-wintering of your bull here at Maple Lake Stock Farms. We will offer this program to you at the cost of feed and yardage (may vary from year to year). The bulls will be at Maple Lake from November 1st until April 15th. This offer is available to Maple Lake raised bulls ONLY.

Terms:

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes- bidding will be reopened between the parties involved. The auctioneers' decision on all disputes will be final. Maple Lake Stock Farms reserves the right to draw semen, for in herd use only, on all bulls in the sale. All sales are in Canadian funds. Exchange rate is as of the day of the sale.

American Visitors:

The nearest port is the Goodlands Port; it is only open 9 AM-9 PM. The Boissevain Port is a bit further east but is open 24 hours. If you are a citizen of the United States; you do not need a passport to enter Canada. However, you should carry proof of your citizenship, such as a birth certificate, certificate of citizenship or naturalization, as well as photo identification. More information is available at www.cbsa-asfc.gc.ca

Liability:

All persons attend the sale at their own risk. Any accident or loss of property is not the responsibility of Maple Lake Stock Farms.

SEMEN PACKAGE - WHEATLAND 786T

LOT # 786

SELLING 5 STRAW SEMEN.

No semen has been offered since 2010. There will not be another offering this year.

Wheatland 786T is the unrecognized hero. He has proven to be truly outstanding. He is a full brother to the great 680S. He is a 9 yr. old sire that bred more than 40 head in 2015, and 80-90 head in 2014. As a yearling he bred 100 females, in three breeding seasons. His progeny has been a herd builder for us. He has proven calving ease in many heifers over the years. 2016 average birth weight 87 pounds. He is homo polled and hetro black. His females have all the desirable traits. They are functional females with great udders and feet that last. They are thick made, structurally flawless, with wide tops. This is multiplied with breeding selection to our thick stout herd sires. We have many 7 yr. old daughters working hard for us. His daughters look after themselves, low maintenance, and do their job very well. Females are consistently weaning 70-85% of their body weight. Easy to manage temperament is also an important trait in our herd. 786 loads onto the trailer in pasture like a show animal.

The exceptional uniformity, shows in our bull pen. It's a challenge to pick just one. The consistency is stamped the same on the ½, ¾ or Purebreds. His Progeny is structural sound, with powerful muscle expression. 786T has 160 male progeny working for cattle producers. The high seller (\$5000) from our first bull sale in 2010 is still working for Roger Tataryn. Consistent low birth weights and above average weaning weights is a guarantee with 786T. This year's offering averaged 991 pounds on Oct 15. Note the picture of the weaned bull calves still out in pasture on October 25.

Rampage is one of his Purebred, 7 yr. old sons that was owned and shown by Tessier Simmentals. 786 T is the grandsire of the high selling Simmental bull at M& J Farms sale this year. He was shown at Denver this winter and was one of the stoutest made bulls in the yards, an attention getter.

DAM WT:	1611	REMINGTON ON TARGET 2S		
WEANING %	75	ACS MS WILLAMENA 9761W		
		HAAS RANCH G217		

Publicity is an outstanding package. He is stouter than most. He is the image of 786T as a yearling. At the age of 1 month he had that herd sire look. The feature picture was taken in August in the pasture. He was weaned on Oct 6th. Brought home from pasture and put his first halter on. He was Champion Bull at Manitoba Ag Ex, 3 weeks later. That is the disposition of 786T to a T.

The dam is a functional, structurally sound, easy keeping daughter of On Target. She has been a successful flush cow. We have retrieved 23, #1 embryos sired by 786T. We have flushed her to High Voltage for this season. She consistently has produced powerful calves, with the extra explosion of muscle. She is a heavy milker, reflected in the weaning weights.

30 DOSE SEMEN PACKAGES AVAILABLE TILL SALE DAY

After sale, no other semen packages will be available for the 2016 year. Contact Gerry for more details!

DAM AGE:	7	MADER P BLACK IRONMAN 22U			
DAM WT:	-	MADER P IRON SUGAR 7X			
WEANING %	-	LFE FAMOUS 632T			

This Combustible bull is one to take a look at! He is a well-made, soggy yet attractive style of a bull! Andrea & Clint purchased these embryos from 5 Star Cattle Co. They got one heifer and one bull. The heifer, Silver Lake Champagne 22C drew some attention at the Shades of the Prairies sale in December selling for \$9000 to Spring Creek Simmentals. Coming from the proven Mader Iron Sugar cow that has an outstanding track record he is sure be a standout! She is the dam of Mader Honey Badger and Mader Sugar Daddy.

This registered 7/8, dark red blaze face bull has eye appeal, He is moderate frame, thick muscled and moves well. He is the son of two black parents. Quinn Wilson bought a maternal sister at the Shades sale 2014.

Testimonials

"I am very pleased with the bulls from Maple Lake Stock Farms that I have purchased over the last few years. The calves are quiet and easy to handle. The bulls are great breeders; 30-40 cows each, with no problems at all. At 2 yrs. Age they bred 40 cows with ease. They leave me a great group of steers in the fall, to sell. Last fall my cows weaned more pounds with less creep feed. I have kept an excellent group of replacement heifers to grow my herd. The service Gerry provides is second to none. He always has time to talk as well as show us his herd, when we come to his farm. He always goes the extra mile to make sure we are taken care of." **Sandy Hintz of Wappella, SK**

HIGH VOLTAGE 122Y

Maple Lake Izzy

Res Champion 2015 MSA Summer Show
photo credit: Simmental Focus

122Y in 2016

DAUGHTER OF ML 2002 - IPU 3B

This is our third Wheatland bull. He is another homo polled, hetro black sire. He sires calves packed with heavy muscling in a powerful, moderate framed package. We are confident in his consistency of low birth weights. He has bred heifers for us with no fault birth weights. His average birth weights are 88 pounds on the 2016 calves. His progeny starts to explode by 3 weeks age and push the scale down at weaning. In this offering of his sons, the average weaning weight is 939 pounds. His daughters are keepers. They have the qualifications we like. He is a great sire on our 786T daughters, bringing the performance standards even higher. A daughter IPU Ms High Voltage 3B sold at Labatte's 2015 bull sale for \$15,500. She is out of our Dam Maple Lake Miss Me ML2002, a 786T X High Voltage dam super performance.

DAM AGE:	10	SIMMENTAL		
DAM WT:	1450	MAPLE LAKE 1623		
WEANING %	-	ANGUS		

This is a Maple Lake sired bull. We sold 1/2 interest of ML 1874Y to Jamie Kohut in 2013. We had some of his daughters calve this year. We absolutely love their perfect udders, and calves are exploding as the days pass.

WHEATLAND SWAGGER 343A

Wheatland 343A Stout, deep and thick defines this sire. Also has super disposition. He was a good purchase in 2014. We are very impressed with his progeny out of the 786T daughters. Only 3 sons are on offer here. His calves literally start to explode by 3 weeks age and walk with a swagger. Low birth weight is a sure thing with this sire as well. His 2016 average birth weight is 87 pounds.

5508 **MAPLE LAKE 5508**

WEANING %:	73	ML 0064K

He is an attractive purebred bull, loads of hair and thickness. His dam is black white face, sired by the great 3C Pasque. He has great maternal traits.

WHEATLAND HEADLINE SONS

This sire has more frame and structure with the powerful muscle development. He is homo polled and hetro black. 872U has a strong trait for exceptional hair coat. We have many daughters that work extremely well with our battery of stout herd sires. He is a consistent sire of many powerful bull calves. He has done a great job in our herd adding more frame, but keeping the thick, wide, deep muscled structure. His 2016 birth weight average is 95 pound. We have used him successfully on heifers. Due to a breeding injury 2015, he is now an AI sire only.

DAM AGE:	6	WHEATLAND BULL 786T		
DAM WT:	1600	MAPLE LAKE MS BOMBER 0167		
WEANING %:	58	ANGUS/ANGUS		

Very powerful, deep and thick 1/2 blood. He moves loose hided. He weaned an impressive 1147 pounds. His dam is a purebred black Angus, SAV Heritage daughter, from our matron donor IU 1098L. He is from one of our most productive cow family. Homo polled and coat color test pending.

This registered 3/4 bull is a moderate frame and stout. 872U throws the most dense hair coat of all our Wheatland sires. A maternal brother is working at Wilfred Bretecher's.

DAM AGE:	5	IPU ROUHRIDER 2T		
DAM WT:	1594	MAPLE LAKE 1098		
WEANING %:	63	ML 0098K		

This bulls is very long and with lots of eye appeal. He is a registered 3/4 Simmental. His dam is a 786T daughter. She weaned an exceptional 71% of her body weight. Homo polled test pending.

Here is a great unregistered 7/8 moderate framed sire. Unfortunately his great grand dam, died before we got her DNA registered. This guys genetics are loaded with maternal traits. His great grand dam was a donor cow, the grand dam was sired by Reno, his dam is a Rouhrider 2T. He is sired by 872, that gives a big bang of performance.

Offering 8 786T grand daughters

These 8 females are daughters of ML 0094 a ¼ Simmental 786T son. These girls are picked from our keeper pen, and are out of SimmAngus cows. We have been upgrading our herd with Maple Lake genetics. Buying Maple Lake bulls and bred females since 2005. Our herd quality has increased immensely and year after year the calf crop keeps getting better. This March our calves will be sired by 343 Swagger, and sons of Roughrider 2T, 786T, 872U Headline, HighVoltage 122Y, and Worthmore(Angus). We have put a lot of faith into this program. Gerry has been a valuable friend for advice along the way. We are very fortunate to have built a relationship in a program only 10 miles apart. These females we are offering will not disappoint. They will make strong foundation cows in your herd. They were weaned on November 9, and pail fed grain for 60 days. On February the average weight was 830 lbs.

“Not taking advice is like not taking your medicine. It can't help you.”
